MANAGE BUSINESS MORE EFFICIENTLY

Marlin's Customer Management Tool

MarlinNet® is a web-based client management portal designed exclusively for channel customers with higher activity levels.

MarlinNet helps you manage the entire financing process. From submitting credit applications and receiving credit decisions to generating financing documents, MarlinNet is easy to use.

MarlinNet allows you access to important business information 24/7. You have the ability to designate security and access levels in line with your organizations needs.

MarlinNet functions as an extension of your business, creating a simple and seamless financing process for you and your customers.

MARLINnet®

Enables your team to:

1. Work more efficiently
2. Generate more business
3. Respond more timely to customers

Welcome to MarlinNet®!

Marlin's online dealer portal offers you the tools you need to manage your applications, review your current contracts and get real-time views of your customers' status. Access MarlinNet when you need it, 24/7.

Welcome to MarlinNet

Credit Application Submission

MarlinNet makes it easy to submit credit applications online. The short, intuitive application entry form requires basic customer information. The credit applications are sent directly into our automated scoring system for fast decision turnaround time.

Portfolio Management

Monitor customer activity – including application and contract history. Generate real-time upgrade quotes and know when your customers are approaching end of term.

Automated Documentation

Once the application has been approved, you can review and generate financing documents directly from MarlinNet.

Automate the Financing Process:

- Application submission
- Real-time application approval notification
- Automated reporting
- Automated documentation
- Manage your customer data-base
